

PRESS RELEASE

Nordduyn Strengthens its Military Products Sales Team With New Appointments

Montreal, June 10th 2009 – Nordduyn, a designer and manufacturer of innovative light weight products for commercial and military aviation markets announces three new appointments to its world sales team.

Mr. Dan Crowder serves as Nordduyn point of contact for the US DOD (Department of Defense). Dan was a Captain with the US Army where he served for nearly a decade in various theatre operations around the world. Dan contributes a solid understanding of deployment logistics for material and personnel. He is based near Atlanta, GA.

Mr. Phil Moylan oversees sales and marketing efforts directed towards leading helicopter manufacturers in the USA. Phil cumulates over twenty five years experience working with aerospace OEMs and has developed many personal contacts at mid and executive management levels. Phil is located in Portland, Oregon.

Mr. David Warren leads the sales activities for the United Kingdom's MOD (Minister of Defense). David is a member of the Chartered Institute of Marketing and the Royal United Services Institute in London. He has held senior management positions in the aviation and telecommunications sectors and has an established background of selling to the MOD. Dave is based in London.

All three gentlemen will be working under the leadership of **Mr. Patrick Phillips**, Director of Business Development with Nordduyn in Montreal. Patrick will also oversee client support and sales development with the Canadian Department of National Defence (DND).

In Canada, Nordduyn is currently working under an existing contract with the DND to deliver 240 of its revolutionary collapsible lightweight aircraft containers. Nordduyn's innovative container solution considerably enhances transportation logistics enabling emptied containers to be collapsed in less than 10 minutes by two persons with no tools used. The disassembled containers can then be piled up one on top another and shipped efficiently by air and stored taking up minimal space.

About Norduyn:

Founded in 1933, Norduyn is involved in the design, certification and manufacturing of innovative products for commercial and military aviation markets. Norduyn holds several patents involving lightweight products made of aluminum and composites. Norduyn's headquarters are located in Montreal, Canada.
