

CERTIFIED BABY BASSINET

NNAL 141-1C

Folded (w/case)

Galley and Cabin Solutions

Four decades ago, Norduyn pioneered the baby bassinet onboard commercial airline flights. Today, the Norduyn bassinet is renowned worldwide and approved for installation onboard Boeing and Airbus aircraft.

PROVEN DESIGN, PERFECTED WITH OUR CUSTOMERS IN MIND!

- Key advantages:**
- Safest product on the market for infants
 - Three wall anchors providing maximum sturdiness and stability of bassinet
 - Locking mechanism into wall inaccessible to infant, thus preventing injuries to fingers associated with two-point systems
 - Easy maintenance of vinyl material ensuring you will benefit from your bassinet for years to come
 - Complete maintenance service offered
